

Dear Coman,

It was a real pleasure to write this! So many, many memories filled the gap of years gone by.... memories that would take a book to be retold.

I don't know if I told you how my recall during the Korean War turned out...but it was fantastic! I was assigned as the pilot of the Commanding General of the 19th Bomb Group...and he had a converted B-17 as his personal plane. I came through many a close call because of things I learned from you...even if I didn't smoke cigars!

I still owe you that article about AAFTAC that appeared in a magazine in 1944...and it will be on its way as soon as I can locate it.

Love to Dian...and to you...
thanks for the memories!
